PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate (2023-2027) specializing in **MERN stack development**, **Data Structures & Algorithms (DSA)**, and **Object-Oriented Programming (OOP)**. Passionate about building scalable, responsive web applications and solving complex problems through competitive coding.

EXPERIENCE

Software Engineering Intern | Maruti Suzuki India Limited | Gurugram, India | June – August 2026

- Engineered a dynamic KPI Dashboard to continuously monitor real-time system performance and log error related tokens.
 - Developed tracking workflows to detect, categorize, and streamline the resolution of error-related authentication tokens.
-

EDUCATION

Bachelor of Technology in Computer Science Engineering

Seth Jai Prakash Mukand Lal Institute of Engineering & Technology, Radaur, Haryana

Aug 2023 – Present | CGPA: 8.21 (till 5th semester)

Relevant Coursework: Data Structures, Algorithms, OOPs, DBMS, Web Development

SKILLS

Languages: C, C++, JavaScript, Java, Python

Tools / Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases: SQL, MongoDB

Other Skills: Git, GitHub, VS Code, Problem Solving, Debugging, Communication Skills

PROJECTS

Neighbourhood Security System ([Live](#)) | MERN Stack, JWT, Tailwind CSS

- Developed a full-stack platform for real-time security alerts featuring JWT authentication and RBAC.
- Architected an Admin dashboard for society-wide announcements and automated data verification.

UrbanRoute ([Live](#)) | MERN Stack, MongoDB, Tailwind CSS

- Built **UrbanRoute** using MERN stack to enable dynamic, stop-to-stop public transport routing.
 - Optimized Mongoose database queries for nested transit stops, ensuring low-latency search results.
-

ACHIEVEMENTS

- Solved 300+ Data Structures & Algorithms problems on various platforms.
- Anchored a student video for JMIT Reports published on the official JMIT YouTube channel.
- Developed and deployed multiple MERN stack projects.
